

NITHIESH G

FULL STACK WEB DEVELOPER

Chennai, Tamil Nadu. | 9597750485 | nithitech6347@zohomail.in | <https://www.linkedin.com/in/nithiesh6347>

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building enterprise web applications using React, FastAPI, PostgreSQL, MySQL, and AWS. Experienced in REST API development, cloud deployment, CI/CD, Linux administration, and AI-powered application development. Developed Generative AI features by integrating Gemini AI, OpenRouter, and Apify to automate customer profile analysis and generate intelligent sales insights

SKILLS

- **Programming Languages** : JavaScript (ES6+), TypeScript, Python, SQL, PHP
- **Frontend**: React.js, HTML5, CSS3, Bootstrap, Syncfusion Components, Blazor, Redux Toolkit
- **Backend**: FastAPI, Python, PHP, REST API Development
- **Databases**: PostgreSQL, MySQL
- **Cloud & Deployment**: AWS, Contabo Cloud Server, CI/CD, Linux (Ubuntu) Server Administration
- **Authentication & Security**: JWT, Authentication & Authorization
- **Developer Tools**: Git, GitHub, JIRA, Postman, Visual Studio Code, PuTTY, SSH
- **Development Practices**: Agile Scrum, SDLC, Unit Testing, Debugging & Troubleshooting, Database Design & Performance Optimization
- **AI & Automation**: Claude AI, Cursor AI, ChatGPT, Google Gemini, Prompt Engineering, AI-Powered Code Generation, Apify
- **Additional Skills**: Syncfusion Components, REST APIs, Database Optimization, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Atandra Energy Private Limited / Chennai - 2.5 Years

Feb 2023- Present

Enterprise Information System (EIS)

- Led digital transformation of a legacy sales system with full migration to a modern tech stack.
- Improved application **performance** by **30%** and managed database with **1,000,000+ records** in SDLC (Software Development Life Cycle)
- Built full-stack solution using React.js + **Syncfusion, FastAPI REST APIs**, and **PostgreSQL** (from MySQL).

Service Portal

- Created a dashboard to display pending, completed, and repetitive reports, reducing manual report-tracking time by ~25% through automated data visualization.
- Technologies used: **MySQL, PHP, React.js** framework.

Management Information System- (MIS)

- Led the development of an MIS application to manage customer data for 1,000,000 + customer records, including personal information and account details.
- Designed robust validation and conditional logic to handle new data entries, reducing data entry errors by ~30% and ensuring data integrity across the system.

MAP Component Management

- Leveraged **React.js** , **Blazor** framework and **C#** for server-side development, implementing business logic and data processing.
- Utilized Syncfusion's **MAP** component in Blazor applications to incorporate interactive and visually appealing map functionalities.

DEVOPS & SERVER MANAGEMENT

- Managed Ubuntu-based Development and Staging servers hosted on Contabo.
- Deployed applications through SSH using PuTTY.
- Performed application build, deployment, service restart, and release verification.
- Maintained server uptime, monitored deployment environments, and resolved deployment issues.
- Managed Git-based deployment workflow and CI/CD process.
- Coordinated staging environment updates for QA and client testing.

AI ICE BREAKER ANALYSER

- Built an AI-powered feature that scrapes prospect social profiles (LinkedIn, Facebook, Instagram) using Apify and analyzes them with OpenRouter/Gemini AI to generate conversation starters and talking points.
- Developed comparison logic to match sales rep and prospect profiles, generating a compatibility score along with common interests and mutual talking points.
- Built using React, TypeScript, FastAPI, and PostgreSQL, with 24-hour client-side caching to reduce redundant API/scraping calls.

EDUCATION

GRT Institute of Engineering and Technology

2017 - 2021

Bachelor of Engineering

Electrical and Electronics

CGPA - 7.91
